## Recommendation Letter

I am writing this letter to recommend Mr. ( Student Name) who is currently seeking admission to the master's program at your institute.

I have known Mr. ( last name) or more than two years. He was one of the students in the electrical and computer engineering department at the University of Aleppo.

Mr. ( last name) took some of the undergraduate courses which I have taught. His performance in these courses was very good and he was among the top 15%. Also I had the chance to supervise his senior graduation project in which he studied simulation of computer networks using OPNET. He has shown very good performance in approaching the final goal by understanding the problem statement, suggesting the appropriate solutions and composing the report in a well organized manner. He also displayed very good skills in spoken and written English during discussions and reports

Moreover, I had the chance to recognize many of his personal traits through my observations over a span of two years, Mr. ( last name) is ambitious, hardworking, and has a respectful and disciplined personality. He is dedicated and well motivated in his work, and can perform excellently as an individual and as a team member as well.

I could clearly say that he is very committed to pursuing his graduate education and I believe that he will be one of the best students in his class. Therefore, I strongly recommend him for admission to the master's program at your department.

Sincerely,

Dr. Eng. Mohammad A.

Associate Professor

ECE Department
